

# Technical Information

## Projex Walkway

PROJEX Walkway is a non-slip membrane for walkways. The membrane is made of PVC-P with a special embossing on the upper side.

### Application areas and dimensions:

PROJEX Walkway	Membrane for walkways made of PVC-P with special embossing
Colour:	Dark grey
Thickness:	2,2 mm incl. embossing
Membrane width:	1.060 mm
Membrane length:	15 m
Weight:	2,2 kg/m <sup>2</sup>
Building material class:	E
Application areas:	Membrane for maintenance paths made of PVC with special surface embossing. Suitable for installation on WOLFEN and COSMOFIN membranes as well as in combination with further PVC -P roofing and waterproofing membranes. With anti-slip equipment incl. Protective function of the waterproofing layer in the area of walkways on roofs.
Installation:	Align and unroll tension-free the PROJEX Walkway membrane. Weld it all around with the waterproofing membrane in order to fix it to the substrate.
